

# PETER SCHMIDT

## OBJECTIVE

I want to work in a real-world environment, challenge myself and build something that would make something bigger. I would like to get know to how it is to work under real pressure, pushing my boundaries.

## EDUCATION

**Informatik / Bachelor | Johannes Kepler University Linz**

2022 – 23

It's one semester abroad, where I learn German and a bit about AI(machine learning).

**Informatik/ Bachelor | Eötvös Loránd University(Hungary)**

2020 – 2023

I was mostly introduced to the fundamentals such as basic algorithms and data types and programming in computer-close languages(c,c++). Basic python, databases (relations databases, MySQL), the world of the internet and web engineering.

## EXPERIENCE

**TRAINEE | Neticle**

DATES FROM – TO

I prepared websites for web crawling. I laid out the structure of the website (html, css)

**IT | Meditest.hu**

DATES FROM – TO

I made a website for the company and helping with little things (mailing and site maintaining)

## SKILLS

- Goal-oriented, responsible person
- Solution-seeker
- Word, PowerPoint, and Excel
- Photoshop and Premiere(adobe)
- CISCO CNNA1

## ACTIVITIES

In my free time I like to do sports (volleyball, cycling and ping-pong) and taking courses out of my 'professional' field(informatic) on Coursera and Udemy. However nowadays learning the German language takes most of my time.
